

## Product specification

### Feed Salt code no. 3481

<b>Characteristics:</b>	Dried, fine-grained sodium chloride that meets the requirements of the Swiss Livestock Feedstuff Book Ordinance (FMBV). The addition of a water-soluble anti-caking agent prevents the salt from clumping together. The product trickles and is suitable for dosing.				
<b>Use:</b>	The salt can also be used for the manufacture of compound feed or as a feed material. It trickles and is therefore suitable for automatic dosing and mixing processes. The salt is approved for organic farming in Switzerland according to the FiBL Input List.				
<b>Organoleptic properties:</b>	Appearance	white, crystalline			
	Odor	Odorless			
<b>Composition: (dry matter)</b>	Sodium chloride	NaCl	min.	99.8	%
	Sodium	Na <sup>+</sup>	min.	39.3	%
	Sulphate	SO <sub>4</sub> <sup>2-</sup>	max.	1000	mg/kg
	Water-insoluble constituents		max.	0.01	mg/kg
	Anti-caking agent E 536	[Fe(CN) <sub>6</sub> ] <sup>4-</sup>	max.	10	mg/kg
<b>Moisture content:</b>	Weight loss at 110 °C	H <sub>2</sub> O	max.	0.1	%
<b>Physical: properties</b>	Bulk density			1.3	t/m <sup>3</sup>
	Grain size			0.1–0.9	mm
	Average grain size			0.4–0.7	mm
<b>Storage:</b>	The salt should be stored under dry conditions and in closed areas that are protected from frost and free from condensation.				
	Storage temperature			> 5	°C
	Relative air humidity			< 70	%
<b>Regulatory: references</b>	The salt complies with the following legal requirements:				
	<ul style="list-style-type: none"> <li>• Directive 2002/32/EC on undesirable substances in animal feed</li> <li>• Swiss Livestock Feedstuff Book Ordinance (FMBV)</li> <li>• Regulation (EU) 2018/848</li> <li>• Regulation (EU) 2021/1165</li> </ul>				
<b>GMOs:</b>	The product is not produced using genetic engineering methods and does not contain any genetically modified microorganisms or ingredients that require labeling in accordance with the applicable regulations (EC) 1829/2003				
<b>Storage behavior:</b>	The addition of a water-soluble anti-caking agent allows the salt to remain free-flowing during storage.				
<b>Packaging:</b>	50 kg polyethylene bags				
<b>Delivery unit:</b>	Supplied on 900 kg Euro pallets wrapped in PE film.				
<b>Shelf life:</b>	Salt is chemically stable and can be used indefinitely.
