

Letter of confirmation

Allergen Statement (Cosmetics Regulation 1223/2009)

The sodium chloride products manufactured by Schweizer Salinen AG are products of purely mineral composition. No fragrances, perfume compositions, essential oils, plant extracts, or other organic fragrance carriers are used in the manufacturing process.

Based on the composition of the raw materials, the manufacturing process, and the production facilities used, the presence of cosmetic allergens subject to declaration pursuant to Regulation (EC) No. 1223/2009 in conjunction with Regulation (EU) 2023/1545 can be ruled out.

In this regard, the aforementioned sodium chloride products do not contain any of the fragrance allergens subject to declaration listed in Annex III of the Cosmetics Regulation.
