

## Letter of confirmation

### EUDR Statement

The evaporated salt produced by Schweizer Salinen AG is a product composed entirely of minerals and does not originate from agricultural or forestry raw materials.

Consequently, our products are not subject to the requirements of the EU Deforestation Regulation (EU) 2023/1115, as this regulation applies exclusively to products of plant or animal origin.

Schweizer Salinen AG confirms that no agricultural land is used and no raw materials relevant to deforestation are employed in the production, processing, or packaging of evaporated salt.
